

**Join Our Continuing Care
Group:**

This voluntary program is a way to stay in touch with your treatment support long enough to develop your community resources and feel confident that you are on a solid path of recovery.

Remember:

If you should fall or if you feel in danger of relapse, we are here to help you get back on your feet again!

Continuing Care

Dorchester County Addictions Program

"YOUR LIFELINE TO RECOVERY"

What is Continuing Care?

After all the hard work you put into your treatment, **what next?**

Our **voluntary** Continuing Care program is designed to offer a supportive bridge between formal treatment and your ongoing recovery efforts. With your permission, we offer professional assistance **at no charge** to help you stay clean & sober as you step into your future.

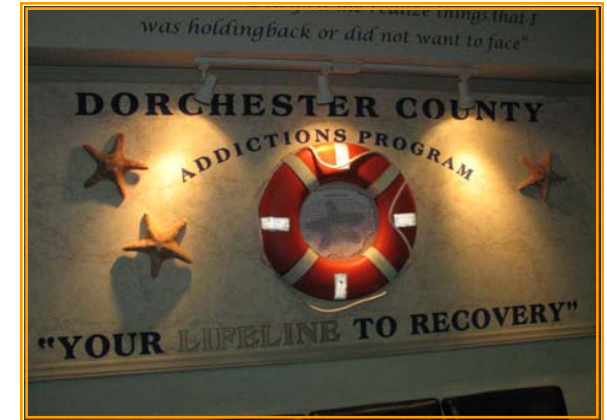

Before leaving treatment, your counselor will plan to have you meet with our Continuing Care Coordinator, Jim Gillespie.

Jim will discuss with you how we might be able to help you as you complete your stay with us.

We assure you that participation in our Continuing Care program is entirely up to you.

However, it's important for you to know about some of the *advantages* of signing-up.

- First of all, please know that if you sign up for Continuing Care and later decide that you want out...**just say the word and we will fully cut you loose!**
- If you sign up, we will design a plan (with your input and **based on your personal situation**) that will support your recovery efforts—*at no charge*.
- We will plan a way to communicate that is geared to best meet **YOUR** needs.
- We will provide support to/for you **24/7**— **as long as you wish!**
- If you should need to come back into treatment, we will be able to readmit you without all the admission paperwork hassles.
- We would be able to readmit you based on your particular needs. For instance: you might only need a couple of supportive counseling sessions, or you might need to return to us for a bit longer in order to get fully stabilized.
